A specially developed train takes you into the 20km of caves, with fascinating sights of stalactites & stalagmites. Lunch is included at the restaurant before continuing to the wonderful Medieval Predjama Castle. The legendary castle occupies a strategic perch high on a cliff side which makes it almost impossible for would-be invaders to attack.

"Please note: To complete the full tour of the caves will involve a lot of walking. In addition, the castle does have a lot of steps which will limit the tour for customers with walking disabilities".

Thursday – Bled Island – This morning we have included a boat trip to Bled Island. Above the surface of Bled Lake rises the only real island in Slovenia. In a glacier hollow there is what remains of an Ice Age limestone moraine covered with trees. We will bring you to the island by a special boat with a roof, called pletna. This boat, conducted by one rower with two oars, is known only in Bled.

The island has several buildings, the main one being the pilgrimage church dedicated to the Assumption of Mary. The church has a 52 m (171 ft.) tower and there is a Baroque stairway. The church is frequently visited and weddings are held there regularly. Traditionally it is considered good luck for the groom to carry his bride up the steps on the day of their wedding before ringing the bell and making a wish inside the church! After some free time here we take you back to the main land for a free afternoon.

Friday – Ljubljana and Lipica – This morning we make our way to the Slovenian capital of Ljubljana. This is a picturesque city boasting a wealth of attractions such as, Tivoli Park, The Dragon Bridge, Ljubljana Castle and the river. This afternoon we follow in the footsteps of HM The Queen as
